GLOBAL SAR PLAN CONTAINING INFORMATION ON THE CURRENT AVAILABILITY OF SAR SERVICES

Introduction

1 This circular contains information on the current availability of Search and Rescue (SAR) Services, based on responses received from Member Governments in line with COMSAR/Circ.27, as given in annex 1.

2 Data received from the Member Governments according to the format of new combined SAR.2 and SAR.3 circulars is given in annex 2 and information on Telemedical Maritime Advice Services (TMAS) is given in annex 3.

3 Governments are invited to check the information contained in this circular and inform the Secretariat of any amendments thereto so that they can be included in the next edition of the Global SAR Plan. This circular is issued in loose-leaf format, updated twice a year and available on the IMO website. **The pagination on annexes 2 and 3 does not correlate with the previous circulars (SAR.8/Circ.1, SAR.8/Circ.1/Corr.1, SAR.8/Circ.1/Corr.2, SAR.8/Circ.1/Corr.3 and SAR.8/Circ.1/Corr.4), as this particular circular only contains the information provided by the countries highlighted in annex 1.**

4 Governments who have not yet responded to the COMSAR/Circ.27 are invited to do so as soon as possible.

5 Any amendments, responses to the COMSAR/Circ.27 and relevant inquiries should be forwarded to:

| 15 | Remarks | <p>1 Channel Island Subregion A subregion of responsibility for local operations is established around the Channel Islands, extending for a distance of 12 miles from the Islands to the sea, with the exception of the East and South, where it follows the Median line to the French Coast. The subregion is divided into two local action zones separated by a line joining the points 49° 00' N 003° 00' W and 49° 30' N 002° 00' W, controlled by Guernesay in the North and Jersey in the South. The institution of this subregion for the present purpose will have not effect on the status of the waters concerned nor alter in any way the jurisdiction of the two Governments under international law, and will not prejudice any matter relating to the establishment of maritime frontiers which have been or may be decided between them.</p> <p>2 As soon as there is a doubt whether or not a given French MRCC (or any French MRCC) is responsible of or competent for a given case or question, it is recommended to call MRCC Gris Nez which will either pass to the appropriate centre or deal directly with the case or question, according to circumstances.</p> |

| 1 | National responsible Authority for Maritime SAR | <p>On 5 July 2004 the Rescue Co-ordination Centre New Zealand (RCCNZ) took over responsibility for Class III Search and Rescue (SAR) activity in New Zealand's Search and Rescue Region. The new centre is managed by the Maritime Safety Authority (MSA) under a Memorandum of Understanding with the Civil Aviation Authority (CAA). New legislation to be introduced to formally transfer the responsibility for Class III search and rescue missions from the CAA to the MSA is expected to be in effect on 1 December 2004.</p> <p>The MSA and Civil Aviation Authority have worked together to establish the centre which is co-located with the MSA Maritime Operations Centre in Avalon, Lower Hutt, New Zealand.</p> <p>Until 1 December 2004:</p> <p>Civil Aviation Authority of New Zealand 10 Hutt Road, Petone P.O. Chart 1 – United States Maritime Search and Rescue Region – Pacific

Key:

- (1) Maritime SAR agreement SRR lines are solid.
- (2) IMO Provisional SAR Plan SRR lines are dashed (as of October 2000).

Note 1: SAR Agreement signed 31 May 1988 but not yet ratified by the Russian Federation.

Note 2: Not all coordinates are plotted; the general trend of the line is depicted.

Note 3: SRR began at the North Pole due to: (1) U.S.-U.S.S.R. Maritime Boundary Agreement signed 1 June 1990 states "From the initial point, 65° 30' N, 168° 58' 37" W, the maritime boundary extends north along the 168° 58' 37" W meridian through the Bering Strait and Chukchi Sea into the Arctic Ocean as far as permitted under international law."; (2) U.S. aeronautical SRR under ICAO starts at the North Pole; and (3) U.S.- Canada aeronautical and maritime SRR ends at the North Pole.

Note 4: Gap between Japanese and Russian SRRs with U.S. still requires trilateral negotiations as of October 2000 to formally connect between Russian ending point and Japanese beginning point: northwestward from 50° 58' 39" N, 167° 00' 00" E to 52° 30' N, 165°E.

Note 5: Peru – U.S. maritime SRR delimitation pends further discussion.

Note 6: SRR Alameda will continue to be responsible for the additional areas delimited by the line following the 200-mile EEZ of Costa Rica, Nicaragua, El Salvador, Guatemala to a point 11° 58.1' N, 094° 26' W pending further discussions.
